Why us?

Our products

Lenta terrace systems

Lenta wood composite

Lenta boards are available in seven very vivid and expressive colors that give the terrace a unique, modernist look. At first glance, the composite looks like real wood and attracts the attention and interest of even the most demanding experts.

Millboard terrace systems

Millboard perfect boards

Millboard is an innovative product on a global scale, extremely durable, solid and its appearance resembling real wood. Millboard boards are formed on the basis of carefully selected samples of high-quality oak, reflecting the natural beauty of the original. Only Millboard composite boards are manufactured with this craftsmanship.

The logo for Millboard, featuring the brand name in a white, lowercase, sans-serif font on a green rectangular background.

millboard®

Live.Life.Outside.

A high-angle photograph of a curved pool deck made of wood composite material. In the foreground, a pair of orange sandals and a pair of sunglasses on a blue box are placed on the deck. The pool water is blue with a white stripe pattern.

preview of the terrace

Gain time and reputation

At Lenta, customers receive a graphic offer with a detailed arrangement of joists, boards and their lengths to facilitate self-assembly. We will evaluate the client's terrace in 56 seconds! Each distributor has an online account with us that allows for independent valuation.

MARKETING MATERIALS AND FREE SAMPLES FOR CUSTOMERS

We equip our distributors with a complete marketing set, including: from catalogs, displays, templates. We provide access to cloud-based materials: photos, graphics, videos, manuals, technical cards, social media materials.

According to the policy of our company, each customer, if interested in purchasing, will be redirected to the nearest Distributor. We make it possible to order free product designs via the form on our website.

LENTA PLATES

Lenta is not only a company name and brand, it is also a lifestyle. Everything we do is created out of passion to make every moment spent on the terrace unique.

In order to identify the terrace as an original Lenta product, our customers receive a sign with the brand logo.

WORK WITH AN ENVIRONMENTALLY CONSCIOUS COMPANY

S A D Z I M Y
LS N ZWSZE

ALREADY OVER 20,000 TREES!

SUSTAINABLE DEVELOPMENT

TRANSPORTATION

We use stretch films made of 80% recycled materials. Additionally, each packed pallet is fastened with PET polyester straps.

DOCUMENTATION

For printing and shipping all documents, we only use gray ecological recycled kraft paper.

COMPANY'S IMAGE

Each shipment leaving our company is packed in 100% recyclable ecological packaging tape made of kraft paper (a type of paper made from recycled paper).

LOGISTICS

When sending samples and patterns of boards, we use only ecological solutions made of kraft paper.

WE PLANT FORESTS

We focus on the image of an environmentally friendly brand, which is why we have established long-term cooperation with the "Las na Zawsze" foundation. We are COMMITTED to providing financial resources for the planting of new forest areas. Thanks to our clients, EVERY single square meter of Lenta terrace installed will relate to planting new forest areas.

We look forward to working with you!
